

BLAKE

207683A 5" 5CCT LED Vanity Light

The Blake vanity light takes its inspiration from the iconic martini glass, transforming its silhouette into a work of light and texture. Each shade combines clear glass above with ribbed glass below, a pairing that creates dimension while casting light both upward and downward. Finished in champagne gold and polished nickel, with both finishes included for a uniform or contrasting look, Blake unites refined design with 5CCT integrated LED technology for flexible, enduring style.
