

FRUITERA

390466A 56" 3CCT LED Pendant Light

The Fruitera LED linear pendant makes a striking statement with six gold smoked glass shades suspended across a 56-inch black and brushed gold frame. When off, the vapour-coated glass appears smooth and mirror-like, offering rich metallic depth. Once illuminated, concealed internal acrylic diffusers softly reveal a luminous inner core, transforming each shade with layered warmth and dimension. With adjustable hanging height and integrated 3CCT LED technology, this linear masterpiece allows you to customize both its presence and the warmth of its glow to perfectly illuminate a large dining table or kitchen island.
